Prices of Engineering Materials

PRICE CHANGES AND THE BUSINESS OUTLOOK

Improvement in general business and contracting is confined to a few localities while from many quarters come authentic reports that business is more unsatisfactory than at any corresponding time in several years. Building activity is less, iron production smaller, consumption of metals not so large as a year ago, fewer men are employed, and fewer freight cars are in use. Against these unfavorable factors is that knowledge that there is more State and municipal work in progress than a year ago and that a plethora of idle funds awaits employment. Prospects for excellent business later are particularly bright when viewed from the agricultural side. Never has there been such an excellent outlook for wheat. Other crops will be large and farmers are undoubtedly more prosperous than ever before. The prosperity of the farmer is a good foundation upon which to build an active business season for all kinds of trade.

The inability of a dry-goods distributing house of international reputation to meet its obligations is of deep significance. Mindful of the fact that New York has ceased to be a dry-goods jobbing center, and perhaps that kind of business will have to make way for more modern methods, this failure indicates clearly that merchants scattered in the smaller towns in the West and the Southwest have been unable to make collections with sufficient regularity to pay the wholesaler. That it did not have a more serious effect is a strong testimonial to the stability of business.

It should be distinctly understood that present conditions are the result of commercial ad not financial ills. The abundance of funds is recognized in almost every section of the country, and exports of gold although frequent have caused no disturbance in monitary conditions. The trouble is clearly a lack of business.

Contract work has improved. This applies almost wholly to municipal, county and state work, and the reason for it is not hard to find. For the last two or three years municipalities have been unable to sell their bonds at anything like a satisfactory rate, and now funds are plentiful, work has been started. Then, too, there has been a more or less general awakening of civic pride in many of the older cities through the country. Albany, N. Y., may be pointed to as an example of this. Moreover, in some cities at least an effort has been made to advance construction work this year so that employment could be given to many who would otherwise be idle.

Prices in important lines continues to decline steadily. A quotation of $1.05 Pittsbugrh, for plates has been recorded. The index figures issued by the government show a lowering in the cost of living and even a well known maker of motor cars cut the price of this luxury $200.

The unfavorable conditions in the iron trade are attracting more attention than in any other line. Production continues to decline, unfilled orders of the United States Steel Corporation are less and less each month, and prices in every line are the lowest in years and while stocks continue to accumulate. Contracts for the cast-iron segments for the East River tubes call for about 80,000 tons which went at an unusually low price, something under $27 a ton, or a price close to the figures which were made for the Hudson tube at the time of severe business depression.

Labor is easy to obtain; in fact, there is no difficulty in obtaining any number of workers for outside construction at $1.50 a day for ordinary work. Immigration figures also tell a story. For the first five months of the year the number of steerage passengers coming into the country was 180,000 less than during the corresponding time last year.

Cement manufacturers are maintaining a price which is equivalent to about 90c. per bbl. in bulk at the mill. The mills are working to about 50 per cent. of their capacity.

Prices of metals continue to decline. Copper is below 14c., and tin is sold around the lowest prices reached in the last three years. Stocks of copper are accumulating; the same is true of tin.

The decline in crude oil has not been so spectacular as it was two months ago, but ther has been much competition and in the East some particularly low prices have been named to the retail trade. Some garages sell gasoline as low as 9c. per gallon.

LABOR

Contractors can get all the men they want for $1.65 a day, and in many places $1.50. Most laborers on state road work are paid $1.50 for grading and $1.65 for quarry work. Enforced vacations are the rule in a number of lines. Many of the leading railways have reduced forces 10% by compelling all employees from the president down to take a three-days' vacation each month. The Ford plant is granting a month's vacation, without pay, and this has been extended to a number of other factories. Skilled labor is in somewhat better demand, but there is a drastic weeding out of inefficient help in all quarters. The Westinghouse strike in Pittsburgh is the most serious labor disturbance reported this month. It seems unlikely that there will be any compromise to the Union as such. Business in the electrical line has shown a distinct falling off.

Imigration statistics for the first five months of the year indicate clearly that there is less incentive for contract laborers to come to this country. For this fiscal year to June 12 and incoming steerage passengers numbered 437,000 compared with 620,000 in the corresponding period last year. This was a falling off of 183,000. At the same time the steerage passengers leaving this country in 1914 numbered 229,000 compared with 159,000 at the same time last year, showing more departures by 70,000 this year than last, and making a difference of 250,000 in the number of laborers of this class.

CRUSHED STONE, SAND AND GRAVEL

Crushed Stone—Sellers of crushed stone in the New York market are of unanimous opinion that business has not been so unsatisfactory in a number of years. Indeed when the capacity of the stone-crushing plants is taken into consideration it is difficult to find a time when there was so little business ruling. Some more business has been placed in June than in May, but only a little more and it is doubtful if for the first six months of the year there has been 50% as much stone delivered in New York as there was last year in the same time. Prices are steady at 90c. to $1 for 1½-in. stone, and 95c. to $1.10 for ¾-in. stone. These quotations are for full cargo lots of 500 cu.yd. delivered alongside of dock New York or Brooklyn.

Sand and Gravel—Business is very light. There is practically no demand for gravel except subway gravel and little sand is moving. Gravel sells at 90c. for 1½ in., while special gravel for subway specifications is quoted at $1.15.

Sand sells at 50c. per cu.yd.

The above quotations are for full cargo lots of 500 cu.yd. delivered alongside of dock, New York. In Boston gravel sells at 35c. per cu.yd. at quarry 25 mi. out, the freight rate to Boston being 40c.

CEMENT, LIME AND BRICK

Portland Cement—The most surprising thing in the cement trade is that prices have been maintained. There is of course, some cutting, but there always is at such a period when the smaller mills are out for business. In some cases the cut has amounted to more than 10c. per bbl., but in general prices are firm. Most of the business now being placed is for road work in various states. The leading manufacturers of cement in the Lehigh Valley district are maintaining their position with a great deal of stubbornness and refusing to make concessions of any kind, this in spite of the fact that they do not seem to be running more than 50% of capacity. In the West business is slightly better, but not as good as it was hoped early in the year.

Quotations are unchanged at $1.58 per bbl. for delivery within lighterage limits New York. This is equivalent to $1.46 in Jersey City and 95c. per bbl. in bulk at the mill. Quotations given below do not include the allowance of 40c. for baks returned. They are as follows per bbl. f.o.b. the points named, not including package:

Boston	$1.32	Chicago	$1.15
Cleveland	1.30	Detroit	1.19
Duluth	1.38	Jersey City	1.06
Minneapolis	1.35	New York	1.18
Pittsburgh	1.10	St. Paul	1.35

Brick—Within the last week there has been improvement in the business situation and brick are in much better demand. Prices are steady at $5.75 per M. in New York. From yards in Newark, $7.25 is demanded.

Lime—Business is quiet, but prices are unchanged at 97c. per bbl. for state common, 200 lb. net; $1.37 for 300 lb. "Star"; $1.55 for 300 lb. finishing; $1.10 for 200 lb. finishing and $1.72 for 350 lb.

Plaster Blocks—Prices are without change, and the market is fairly active, quotations being as follows:

	Weight, per sq.ft., lb.	Price, per sq.ft., cents
2-in.	7	6
3-in.	8½	6½
4-in.	11	7¼

These blocks are made 32 in. long by 13½ in. wide, containing 3 sq.ft. of surface. The 2-in. blocks are solid, but the others are hollow.

IRON AND STEEL

Pig Iron—Sales of pig iron have been limited, and prices have declined to still lower levels, though stocks do not seem to be accumulating. The Southern iron market has been of more interest than anything else, and some sales in Birmingham have been made as low as $10. The general market there, however, may be quoted at $10.25@10.50. In the North there has been very little new buying. The chief feature of interest was 80,000 tons of tunnel segment for the two East River tubes in New York, and although no quotations or authentic figures have been given out, it was understood that the price was below $27 per ton for castings delivered in New York, machined, and ready to be placed. This is an unusually low quotation, and almost duplicates the low figure at which the Hudson Tunnel segments were placed a number of years ago, when labor and materials were quoted at less than they are today. The unfilled orders of the United States Steel Corporation continue to decline, and on May 31 were slightly less than 4,00,000 tons.

Quotations for lots of 100 tons or over, and the prices named, are as follows: Cincinnati Southern Foundry No. 2, $13.50@14; Northern Foundry No. 2, $14.75@15.25; Northern Foundry No. 3, $14.50@14.75; in New York, Northern Foundry No. 1, $14.75@15; Northern Foundry No. 2X, $14.50@14.75; and Southern Foundry No. 2, $14.75@15; in Chicago, Northern Foundry No. 2, $13.75@14.25, and Northern Foundry No. 1, $13.50@14. In Pittsburgh, bessemer is $14.90 and basic $13.90. These quotations include the 90c. freight rate from the valley to Pittsburgh. In Birmingham, Southern Foundry No. 2 is quoted at $10.25@10.50, but there some few sales were made as low as $10.

Steel Rails—A few small orders have been released by the railways. The St. Louis & San Francisco bought 32,000 tons from the southern mill, the Boston & Maine purchased 500 tons, the Pennsylvania R.R., 5000 tons; 10,000 tons have been taken for shipment to Asia, and there is an inquiry in the market for 15,000 tons for South America.

The Pennsylvania R.R. called for bids on approximately 100,000 tons of rails. The company has already ordered 37,000 tons. In this inquiry 15,000 tons will weigh 120 lb. per yard. The remainder of the order is for 100-lb. sections and the specifications are approximately the same as last year's.

Quotations are as follows for lots of 500 tons or over, but when only a few tons are purchased somewhat higher prices are demanded: Standard sections of bessemer rails, $28; openhearth rails, $30. These quotations being f.o.b. Pittsburgh. Girder rails in 30-ft. lengths are $36.40 per gross ton, and in 60-ft. lengths, $38.40, both f.o.b. New York. Other quotations f.o.b. Pittsburgh for large lots are as follows: 25 to 45 lb. sections, 1.25c. per lb.; 16 to 25 lb. sections, 1.30c.; 12 and 14 lb., 1.35c.; 8 and 10 lb., 1.40c. all in carload lots f.o.b. Pittsburgh. In New York, relaying rails are quoted at $21.50 to $22, and in Chicago, $24.

Track Supplies—Purchases are again smaller and the mills are not running any more than 50% of capacity. Some sales have been made of standard sizes of spikes at $1.30, and small spikes have been sold at $1.50, f.o.b. Pittsburgh. In Chicago, standard spikes, 1.50 to $1.55 track bolts with square nuts, $1.90 to $2, and angle bars, $1.50. All these prices are per 100 lb. Tie plates sold as low as $25.50 to $26 f.o.b. mill. This price is per net ton. The extra on railroad and boat spikes are unchanged, as follows:

Railroad spikes	Cents
3, 3½, 4, 4½ and 5x½	Extra .10
3½, 4 and 4x7/16	Extra .20
3, 3½, 4 and 4½x⅜	Extra .30
2½x⅝	Extra .40
2½, 3 and 3½x7/16	Extra .60

Structural Materials—More orders were placed in June than in May. There were a few large contracts, but a great many small ones, and although these do not foot up to a very large tonnage it is recognized that a great deal of fabrication work was called for. Many of them were small jobs and light sections. The contract for the William Penn Hotel in Pittsburgh, involving about 8000 tons, was placed, and a few small railway bridges. The project for a new Ohio River bridge has also been announced. Some subway work for New York came out, but not any large quantity.

Prices remain unchanged from last month, at 1.15c., f.o.b. Pittsburgh. This includes I-beams 3 to 15 in., channels 3 to 15 in., angles 3 to 6 in., and tees 3 in. and over. Other quotations are as follows: I-beams over 18 in., H-beams over 18 in., channels over 16 in., and angles over 6 in., 1.25c.; tees, 1.20c.; deck beams and bulb angles, 1.45c.; hand-rail tees, 1.90c. Cutting to specified lengths is charged for at the following rates: Under 3 ft. to 2 ft., inclusive, 25c. per 100 lb.; 2 ft. to 1 ft., inclusive, 50c.; less than 1 ft., $1.55. No charge is made for cutting to specified lengths over 3 ft.

The Unfilled Tonnage of the United States Steel Corporation for the month of May, 1914, amounts to 3,998,160 tons. This compares with a similar period in 1911, 1912, 1913, as follows:

May 31, 1911	3,113,187
May 31, 1912	5,750,983
May 31, 1913	6,435,322

For the preceding months of 1914 the tonnage per month is as follows:

Jan. 31	4,613,680
Feb. 28	5,026,440
Mar. 31	4,653,825
Apr. 30	4,277,068

Plates—As low as 1.05c. has been done on attractive orders were placed. The car business has been somewhat more active. The Illinois Central has purchased 2000 cars and the Merchants Dispatch Fast Freight line will build 2000 cars in its own shops, the Erie has an inquiry in the market for 800 gondolas, and the Pittsburgh and Lake Erie has an inquiry out for 1000 hopper cars. There is also some pipe-line work springing up. The plate mills are operating to about 60% of capacity.

Quotations are low at 1.05c., base Pittsburgh. This is for gages ¼ in. and over; for gages under ¼ in., to and including 3/16 in., 1.15c. is demanded. In Chicago mill deliveries are 1.25@1.30c., and plates from store are 1.65@1.75c. In New York mill shipments are 1.31c.

Cast-Iron Pipe—The low prices have brought considerable business. A great deal of this comes from private water companies who are quick to take advantage of low cost, but there is a great deal of work developing in municipal water supplies. This is coming from all parts of the country and is a most encouraging sign. Prices seem to be about as low as they will go, unless there is some drastic reorganization than is now thought possible. Stocks are not specially large, but pipe foundries are not operating to anyways near full capacity.

Quotations are unchanged as follows:

Chicago, 4 in., $26; 6 to 12 in., $24; 16 in. and upward, $23.50.

Birmingham, Ala., 4 in., $20.50; 6 in. and upward, $18.50.

New York, N. Y., 6 in. and larger, $20.50 to $21.

These prices are per net ton of 2000 lb.

Gas pipe is held $1 per ton higher in all markets.

Pipe—Several large contracts have been placed during the month. These include 118 mi. of 18-in. and 57 mi. of 10-in. pipe for the Valley Pipe Line Co., of California. 40 mi. of 16-in. pipe for the Logan Natural Gas Co. A foreign inquiry has also developed calling for approximately 450 mi. of pipe for shipment to Persia. It is doubtful, however, if American mills can secure this order. Orders during June showed a gratifying increase compared with those for May, and pr[illegible] are well sustained, discounts being unchanged as follo[illegible]

	Black	Galvani[illegible]
¾- to 2-in. steel butt welded	80%	71½[illegible]
2½- to 6-in. steel lap welded	79%	70½[illegible]
7- to 12-in. steel lap welded	76%	65½[illegible]

At these discounts the net prices of pipe per foot Pittsburgh are as follows:

Diameter	Cents Black	Cents Galvanized	Diameter	Cents Black	Cents Galvanized
¾-in.	2.30	3.27	5-in.	31.00	43.[illegible]
1-in.	3.40	4.85	6-in.	42.00	56.[illegible]
1¼-in.	4.60	6.50	7-in.	57.00	80.[illegible]
1½-in.	5.50	7.80	8-in.	60.00	86.[illegible]
2-in.	7.40	10.50	9-in.	84.50	$1.[illegible]
2½-in.	12.20	17.30	10-in.	99.00	$1.[illegible]
3-in.	16.00	22.60	11-in.	$1.12	$1.[illegible]
4-in.	22.90	32.30	12-in.	$1.22	$1.[illegible]

Sheets—Business has shown a distinct improvement in the last week. Several makers report that inquiries received in the last fortnight have been the heaviest in several months. Mills are still operating at about 60% of capacity, which is an improvement compared with last month. Prices are exceedingly low, and the following quotations are current for large lots Pittsburgh, and small lots from store New York.

The following quotations are current for large lots in Pittsburgh and small lots from store, New York:

Nos.	Cents per pound: Carload lots, Pittsburgh Black	Galv.	Small lots, Chicago Black	Galv.
10 and 11	1.55	1.85	2.15	2.70
12	1.55	1.95	2.20	2.75
13 and 14	1.60	1.95	2.25	2.75
15 and 16	1.65	2.10	2.35	2.85
17 to 21	1.70	2.25	2.50	3.15
22 and 24	1.70	2.40	2.55	3.30
25 and 26	1.75	2.50	2.55	3.40
27	1.80	2.65	2.60	3.55
28	1.85	2.85	2.60	3.75

Old Material—Prices show little change and there are perhaps as many advances reported as declines. The market appears to be better in Chicago, but in New York the inquiry is very light and sellers are not disposed to push their supplies on the market. It looks as though prices are very near bottom. Quotations per gross ton New York and vicinity are as follows:

Heavy-melting steel scrap	$8.00 to $8.50
Pipes and flues	7.50 to 8.00
No. 1 railroad wrought	10.00 to 10.50
Stove plate	7.50 to 8.00
Malleable cast	7.25 to 7.75
No. 1 machinery cast	10.25 to 10.75
No. 1 yard wrought long	8.50 to 9.00
Wougrht turnings	5.25 to 5.50

In Chicago dealers are tempted to buy scrap because of the exceedingly low price, but many of them have all the stock they can comfortably carry. Railroad offerings are not large, but they continue to steadily come on the market. For delivery in Chicago and vicinity quotations are as follows:

	Per net ton
Heavy-melting steel scrap	$9.75 to $10.00
No. 1 railroad wrought	9.00 to 9.25
No. 2 railroad wrought	8.75 to 9.00
No. 1 cast scrap	9.75 to 10.25
Pipes and flues	6.75 to 7.25
Agricultural malleable	8.00 to 8.50
Railroad malleable	9.00 to 9.25

In Pittsburgh there is very little inquiry, although turnings have moved up slightly and there seems to be a very fair demand.

Quotations per gross ton are as follows:

Heavy-melting steel scrap	$12.00 to $12.25
Re-rolling rails	12.75 to 13.00
No. 1 foundry cast	11.50 to 11.75
Old car wheels	11.25 to 11.50
Machine shop turnings	7.25 to 8.00
Railroad malleable	11.00 to 11.25

Coke—The market is not as uncertain as a month ago. Some high grade coke has been recently closed on contract for last half delivery at $2 per net ton at oven, and a sale of 12,000 tons per month went at $1.85 to $1.90 per net ton at oven. For prompt shipment $1.75 is sometimes done, but in general for contracts $1.85 to $2 per net ton is the rule and business seems to be slightly better. For 72-hr. foundry coke, $2.30 to $2.50 per net ton at oven is named, which is 10c. a ton lower on the inside price than a month ago. The output shows a further falling off. For the week ending June 13 it was 259,000 tons, but the low level was reached in the preceding week when 243,000 tons was manufactured.

Rivets—Prices show no change. Cone head boiler rivets are 1.70 to 1.75c. and structural rivets are 1.60 to 1.65c. These prices are in carload lots f.o.b. Pittsburgh.

Piling Steel Sheet—Prices are steady and unchanged at 1.60c. Pittsburgh. The demand is good, compared with other lines of steel products.

Freight Rates—The freight rates on finished-steel products from the Pittsburgh District, including plates, structural shapes, merchant steel and iron bars, pipe fittings, plain and galvanized wire, nails, rivets, spikes and bolts (in kegs) black sheets (except planished), chain, etc., are as follows, in cents per 100 lb.: Albany, 16; Buffalo, 11; Boston, 18; Baltimore, 14½; Canandaigua, 13½; Cleveland, 10; Columbus, 12; Cincinnati, 15; Chicago, 18; Denver, Colo., 85½; Harrisburg, 14½; Louisville, 18; New York, 16; Norfolk, 20; Philadelphia, 15; Rochester, 11½; Richmond, 20; Scranton, 15; St. Louis, 23; Washington, 14½.

Steel Shapes—Some lines show an improvement but business is still dull. Large consumers are more willing to buy in carload lots for they feel the bottom has been reached and this reduces the volume of business that the jobber has. From warehouse New York prices are as follows:

	Cents Per lb.
Refined iron.	
1 to 1⅞ in., round and square	1.80
1½ to 4 in. x ⅜ to 1 in.	1.80
1½ to 4 in. x ¼ to 7/16 in.	2.00
Norway bars	3.20
Burdens bar iron	3.15
Soft steel:	
¾ to 3 in., round and square	1.80
1 to 6 in. x ⅜ to 1 in.	1.80
1 to 6 in. x ¼ and 7/16 in.	1.95
Rods—⅝ and 11/16 in.	1.90
Bands—1½ to 6x 7/16 in. to No. 8	2.10
Beams and channels—3 to 15 in.	1.85
Angles:	
3 in. x ¼ in. and larger	1.85
3 in. x 7/16 in. and ⅛ in.	2.30
1½ to 2½ in. x ⅛ in.	2.05
1½ to 2¾ in. x 7/16 in. and thicker	1.95
1 to 1¼ in. x 5/16 in.	2.05
1 to 1¼ in. x ⅛ in.	2.10
1½ to 2½ x ¼ in.	2.00
1½ to 2½ x 7/16 in.	2.10
3 in. and larger	1.90

Spiral Riveted Pipe—Prices are without change. The following quotations are f.o.b. factory, freight equalized with New York, being figured at a discount of 50, 10 and 10% from list. These are for orders amounting to approximately $250. For large orders, prices are cheaper by 12½ to 20%.

Diameter in in.	*Thickness Birmingham wire gage	Net price per 100 ft. With bolted joints complete: Plain	Asphalted	Galvanized
4	18	$19.76	$21.48	$30.74
5	18	23.40	23.70	37.14
6	16	33.05	35.76	49.73
7	16	37.58	40.76	56.82
8	16	43.17	46.80	65.00
9	16	50.06	50.10	74.22
10	14	66.42	71.08	96.15
11	14	71.20	76.57	102.24
12	14	83.75	89.15	118.30
13	14	89.67	96.55	127.98
14	14	99.14	105.51	138.85
15	14	108.05	114.89	151.92
16	14	117.53	124.82	166.58
18	12	167.43	175.95	226.44
20	12	183.79	193.30	248.39
22	12	200.48	210.64	269.21
24	12	219.92	231.07	293.99
26	10	280.20	292.41	370.78
28	10	301.32	314.89	395.37
30	10	324.81	399.15	430.64

*Made in both lighter and heavier gages at corresponding differences in price.

Chain—Prices are steady and without change, as follows. These prices are per 100 lb., f.o.b. Pittsburgh:

5/16 in.	$7.50	½ and 9/16 in.	3.00
¼ in.	4.95	⅝ and 11/16 in.	2.90
7/16 in.	3.95	¾ and 13/16 in.	2.80
3/8 in.	3.40	⅞ and 15/16 in.	2.70
1/16 in.	3.20	1 to 1¼ in.	2.60

EXTRAS TO ABOVE LIST PER 100 POUNDS

	For BB	For BBB
5/16-in. and ¼-in.	$1.50	$2.00
7/16-in. and larger	1.25	1.75

Switch Points—The following prices are named f.o.b. mill, for switch points in lots of ten or more pairs: for 60-lb. rail, 10-ft. points, $16.25; 15-ft. points, $17.50; for 70-lb. rail, 10-ft. points, $18; 15-ft. points, $25; for 80-lb. rail, 10-ft. points, $25.50; 15-ft. points, $27.75; for 90-lb. rail, $33.50. All of the above are furnished with three rods, except the 10-ft. points for 60- or 70-lb. rail, which have only two.

Nails—Wire mills are operating at about 50% of capacity. The base quotation in Pittsburgh is $1.50 to $1.55 per keg of 100 lb. In New York wire nails from store are $1.95 to $2, and in Chicago nails are $1.88 to $2.95.

Wire—The mills are operating to 50% of capacity, but this is the dull season. Prices are as follows: Plain barbed wire, $1.35; painted barbed wire to jobbers in carload lots, $1.55; to retailers in carloads, $1.65; galvanized barbed wire, $1.95. These quotations are f.o.b. Pittsburgh. In Chicago plain wire is $1.55, painted barbed wire $1.78, and galvanized barbed wire $2.10. All of these prices are per 100 lb.

REINFORCING MATERIALS

Triangle Mesh—Business is not especially active. Quotations are without change as follows:

PRICE PER 100 SQ.FT.

Style No.	Cross sec. area per ft. width	Plain material: Carload lots	Plain material: Less than car lots and over 10,000 sq.ft.	Galvanized: Carload lots	Galvanized: Less than car lots and over 10,000 sq.ft.
*4	0.102	$1.00	$1.23	$1.12	$1.34

42	0.151	1.55	1.88	1.72	2.05
*43	0.101	1.10	1.34	1.23	1.46

*This material is made in regular widths of 18, 22, 26, 30, 34, 42, 46, 50, 54 and 58 in. Standard lengths in rolls are 150, 250, 300 and 600 ft.

Bars, Concrete Reinforcing—In some quarters there has been competition which forced prices below the 1.15c. price but in most cases that has been the bottom figure. Business is better than a month ago.

Quotations are as follows:

Size	Cents per pound: Mill shipments Pittsburgh	Warehouse Pittsburgh	Delivered from warehouse New York
¾-in. and larger	1.15	1.65	2.25
⅝-in.	1.20	1.65	2.30
½-in.	1.35	1.95	2.30
⅜-in.	1.45	2.05	2.45
¼-in.	1.75	2.30	2.75

METALS

Copper—Prices have declined almost continuously throughout the month and very little business has been done. It is true that around the 14c. level there was some buying, but this was only in small lots, and consumers have taken no more than an academic interest in the market. For foreign accounts business has been light. The chief trouble with the trade in finished material is, while a fair business is ruling, there is on incentive to do it, because there is no profit. Prices at the end of the month were barely steady at 13.62½c. delivered in 30 days.

Tin—A fair business has been transacted, but it has been spotty—one week good and another week extremely poor. The statistical position of tin would seem to warrant somewhat higher quotations, but a powerful clique is operating in the foreign market and has thus far been successful in keeping prices down. Stocks are good and deliveries during June were about 4000 tons.

Lead—Some of the largest sellers of lead had a most satisfactory business during May; others reported little activity. Prices are undeniably low and there seems to be little doubt that the low quotations has induced some business. In New York lead can be had at 3.90c, and in St. Louis at 3.75c.

Spelter—The market is exceedingly dull and prices are unremunerative to the producer. In fact, producers are in a bad way. Spelter is selling at about 5.05c. New York and 4.95c. St. Louis.

Miscellaneous Metals—All kinds of old metals are in fair demand, but prices are low, and it is sometimes possible to shade even the quotations given below, which are for small lots:

Bismuth	$2.25
Brass tubes, iron-pipe sizes:	
½-in.	.17
¾- to 3-in.	.16
3½-in.	.16
4-in.	.17
Brass rods	.15¼
Brass sheets	.15½
Solder, half and half guaranteed	.21
Zinc sheets	.08½
Manganese bronze rods	.23½
Copper sheets, base	.19
Pig tin (five-ton lots, cash)	.31

Old Metals—Prices are lower and there is very little demand. The following quotations are for small lots delivered to buyer's warehouse:

	Cents
Copper, heavy and crucible	12.00
Copper, heavy and wire	11.75
Copper, light and bottoms	10.25
Brass, heavy	7.75
Brass, light	6.25
Heavy machine composition	10.50
Composition turnings	9.00
Lead, heavy	3.40
Lead, tea	3.15
Zinc scrap	3.50

MILL SUPPLIES

Belting—There is little business, but prices seem fairly well maintained. The discounts on rubber belting are as follows: Best grade, 50%; standard, 60 and 10 and 10%; competitive, 70 and 10%. Leather belting can be had as follows: Extra heavy, 50 and 5%; heavy, 50 and 10 and 5%; medium, 70%.

At the above discounts, the net prices per foot of leather belting are as follows:

LEATHER BELTING PRICES IN CENTS PER FOOT

Size Inches	Extra Heavy	Heavy	Medium
1	11.50	10.10	7.20
1½	16.50	15.20	10.80
2	22.75	21.00	14.40
2½	27.50	26.00	18.00
3	34.25	31.00	24.60
3½	40.00	36.00	25.20
4	45.50	41.00	28.80
5	57.00	51.50	36.00
6	68.50	62.00	43.20
7	80.00	72.00	50 40
8	92.00	82.00	57.60
9	$1.02	93.00	64.80
10	1.14	$1.03	72.00
11	1.25	1.13	79.20
12	1.38	1.24	87.40
14	1.60	1.44	$1.01
16	1.82	1.65	1.16
18	2.05	1.85	1.30
20	2.28	2.05	1.44
22	2.50	2.26	1.59
24	2.74	2.45	1.74
30	3.45	3.10	2.17
36	4.10	3.70	2.60

Chain Belting—Prices continue unchanged. Quotations are as follows: From 3 hp. to 10 hp., 30-in. centers complete with two sprockets, $7@8 per horsepower. From 10 hp. to 25 hp., 36-in. centers complete, $5@6 per horsepower. For 25 hp. to 100 hp., 56-in. centers complete, $4@5 per horsepower. From 100 hp. to 500 hp., 72-in. centers complete, $3@4 per horsepower.

CLAY PRODUCTS

Sewer Pipe—Business continues unusually quiet and the drastic cut of last month failed to bring orders. Prices are not so low as last month, the discount for the smaller sizes being 78% from list instead of 75%. Revised discounts are as follows: 3- to 24-in., 78%; 27- and 30-in., 67%; 33- and 36-in., 62%.

At these discounts the net prices per foot in New York are as follows:

SEWER PIPE, PER FOOT

Size	Delivered N. Y.	Size	Delivered N. Y.
3 in.	$0.055	18 in.	$0.418
4 in.	0.055	20 in.	0.495
5 in.	0.088	22 in.	0.66
6 in.	0.088	24 in.	0.715
8 in.	0.121	27 in.	1.48
10 in.	0.121	30 in.	1.82
12 in.	0.22	33 in.	2.38
15 in.	0.297	36 in.	2.67

Flue Linings—The cut last month evidently was not drastic enough and discounts have again been revised. The new discount is 81% from list. At this discount the net prices per foot, New York delivery are as follows:

	Weight in lb.	Price per ft.		Weight in lb.	Price per ft.
4½x8½-in.	14	$0.067	8½x13-in.	28	$0.124
4½x13-in.	20	0.086	8½x18-in.	45	0.17
4½x18-in.	40	0.19	13x13-in.	38	0.167
7½x7½-in.	15	0.076	13x18-in.	57	0.228
8½x8½-in.	18	0.086	18x18-in.	75	0.36

Hollow Tile—Prices are steady and unchanged as follows, f.o.b. Perth Amboy:

Size	Price per block: Hollow wall tile	Size	Price per block: Interior partition block
4x12x12-in.	$0.06	2x12x12-in.	$0.048
6x12x12-in.	0.084	3x12x12-in.	0.048
8x12x12-in.	0.102	4x12x12-in.	0.052
10x12x12-in.	0.12	6x12x12-in.	0.072
12x12x12-in.	0.15	8x12x12-in.	0.096

OILS AND PAINTS

Petroleum Products—A number of new producers in the Los Angeles district have begun to ship oil. The market for refined products is not so active as earlier in the year and prices continue to decline. For Pennsylvania, second sand and Tiona, $1.75 is quoted, Mercer black and New Castle is $1.30, Corning is $1, Kansas and Oklahoma are unchanged at 75c. California oils are quoted as follows: 21 to 23.9 gravity, 45c.; 24 to 26.9 gravity, 50c.; 27 to 28.9 gravity, 55c.; 29 to 30.9 gravity, 60c., and 31 to 32.9 gravity, 70c.

Refined products are cheaper. Auto naptha is quoted at 18c. in wood and 14c. in steel barrels. Some very low retail prices have been established in northern New Jersey and as little as 9c. per gal. has been quoted. Petroleum is still quoted at 9c.

Linseed Oil—Prices are slightly higher at 54 to 55c. for city raw and 52 to 54c. for out of town raw. Flaxseed in Duluth is 7c. higher than last month at $1.60 per bu.

Spirits Turpentine—Business is light and prices are steady. In New York spirits are quoted at 47c. and in Savannah at 42½c.

Carbolineum—This preservative is sold in lots of one or more barrels at 80c. per gal., f.o.b. New York. In half barrels of 25 and 34 gal. at 85c. per gal., f.o.b. New York.

Paints—Prices are steady in New York as follows: White lead in oil in 100-, 200- and 500-lb. kegs is 7¼@7½c. per lb.; in 25- and 50-lb. kegs, 7¾c. per lb. Red lead and litharge in 100-lb. kegs is 7@7½c. per lb.

Hydrex preservative paint is 75c. per gal. in bbl. lots, New York, N. Y.

Colors in oil are quoted at the following prices per lb.: Lamp black, 12@14c.; Chinese blue, 36@46c.; Prussian blue, 32@36c.; Van Dyke brown, 11@14c.; Chrome green, 12@16c.; raw or burnt Sienna, 12@15c.; raw or burnt Umber, 11@14c.

LUMBER

While the lumber trade has been generally depressed, stocks are low and prices have appeared to be near bottom.

Spruce—In Boston spruce is selling at $23.50 to $24 base, and quotations for frames are as follows: 8 in., $23.50 to $24; 9 in., $24.50 to $25; 10 in., $25.50 to $26; 11 and 12 in., $26.50 to $27.

Hemlock—Prices show no changes and the base quotation New York is $22.50. In Boston hemlock is selling at $22, but the cheapness of other lumber makes it difficult to sell at this quotation.

White Pine—The Boston market is dull. Up to 2 in. sells at $100 to $104; 2½ and 3 in., $110; 4 in., $120. Common sells at $73 to $78 for 1 to 2 in.

Railway Ties—Business is exceedingly dull. Some very tempting quotations have been made, but without success. The market is dull and prices are as follows: for 7x9-in. by 8-ft. 6-in., 80c.; 6x8-in. by 8-ft., 70c.; 6x9-in. by 8-ft., 78c. These are f.o.b. New York.

MISCELLANEOUS

Explosives—Dynamite of the kind generally used by contractors is approximately 11@13c. per lb., f.o.b. factory, in ton lots. Blasting powder, classified as "soda" grade, is sold at $1.20@1.40 per keg of 25 lb. in lots of 10,000 lb.

Exploders, per hundred, are sold at the following prices: 4 ft., $3.60; 6 ft., $4.10; 8 ft., $4.60; 10 ft., $5.10; 12 ft., $5.60; 16 ft., $6.60; 20 ft., $7.50; 25 ft., $9.40; 30 ft., $12; 36 ft., $14.60.

Caps in lots of 10,000 are $7@8 per thousand.

Blasting machines for 10 holes are $12; 25 holes, $20; 50 holes, $40; 100 holes, $60.

Telegraph Wire—The demand for telegraph wire has been fair. For lots of fair size, the wire measured in Birmingham wire gage, prices are as follows: "Extra Best," Nos. 6 to 9, 4⅝c.; Nos. 10 and 11, 4½c.; No. 12, 4⅝c.; No. 14, 5⅛c.; "Best Best" Nos. 6 to 9, 3½c.; Nos. 10 and 11, 3⅜c.; No. 12, 3⅛c.; No. 14, 4c. Actual freight is allowed from Trenton, N. J., where it does not exceed 25c. per 100 lb.

Lighterage Limits—The free delivery or "Lighterage Limits" in New York City are as follows: In Manhattan, from a point opposite the Fort Lee ferry, south along the Hudson River around the Battery and north along the East and Harlem Rivers to the Jerome Ave. Bridge at 155th St. In New Jersey, south from Fort Lee ferry to Bayonne City, points on the north and east shores at Staten Island, between Bridge Creek (Arlington) and Clifton, both inclusive, and including Elm Park, Erastina and Shooters Island. In Brooklyn, from 69th St., Bay Ridge, north to Pot Cove, Astoria, Long Island City.

Asbestos—Asbestos building felt and sheathing in less than ton lots is 3½c. per lb. for the light, weighing from 6 to 30 lb. per 100 sq.ft.; 4c. per lb. is charged for the heavy, weighing from 45 to 56 lb. per sq.ft.

Millboard is made in standard sheets, 40x40 in., and 41x40 from 2 to 27 lb. per sheet. The net price in 100-lb. lots is 5c. per lb.

Asbestos wood, used for fireproofing, ventilators and smoke jacks, comes in sheets, 36x48 in., 42x48 in. and 42x96 in. The prices per sheet, f.o.b. factory, in New England, are as follows:

Thickness	Weight, pounds	Price	Thickness	Weight, pounds	Price
1/8-in.	1	$0 08	5/8-in.	5	$0.40
3/16-in.	1½	0.12	3/4-in.	6	0.44
¼-in.	2	0.16	7/8-in.	7	0.48
5/16-in.	2½	0 20	1-in.	8	0.52
⅜-in.	3	0.28	1¼-in.	10	0.56
7/16-in.	3½	0.28	1½-in.	12	0.64
½-in.	4	0.32	1¾-in.	16	0.72
9/16-in.	4½	0.36	2-in.	16	0.80

Asbestos sheathing, corrugated, sells at 15c., per sq.ft. f.o.b. mill eastern Pennsylvania.

Rubber—Prices continue to decline and stocks are increasing. Up River Para fine can now be had at 60c. per lb. compared with 90c. a year ago and $1.12 two years ago. Up River Para coarse is 40c., Caucho balls are 39c. African rubbers are no cheaper and 48c. is noted. Scrap rubber is slightly lower as follows: Automobile tires 4¾ to 5c. bicycle tires 2¾@3c.; air brake hose 2½ to 3c. and inner tubes 16 to 17c.

The Peebles Paving Brick Co., which has two plants at Portsmouth, O., has purchased a plant at Firebrick, Ky., and will manufacture the Dunn brand of Wire-Cut-Lug Brick.

The Philadelphia office of the Mack Manufacturing Co. is now located in the Lincoln Bldg., directly opposite the City Hall. This office is in charge of R. T. Hutchins.

The France Engineering Co., Second National Bank Bldg., Toledo, O., has been organized by George L. Kirby, Willis R. France and Isaac Haufman to conduct a general engineering practice. The company would like to receive catalogs bearing on construction work.

RAILWAYS

✚Florida—Tampa & Gulf Coast Ry.—This company has awarded the contract for construction of its proposed line from Belleair, Fla., to St. Petersburg. C. H. Lutz, Odessa, Fla., is Gen. Mgr.

Alabama—Alabama Great Southern R.R.—This company, it is reported, will ask for bids in about two weeks for double-tracking two sections of its line. The first work will be between Birmingham, Ala., and Mobile Junction, Ala., 14 miles, and between York, Ala., and Meridian, Miss. This is part of the plan to double-track the entire line from Chattanooga, Tenn., to Meridian, Miss., for which $25,000,000 in bonds have been issued. C. Dougherty, Cincinnati, Ohio, is Ch. Engr. Noted June 25.

Mississippi—Alabama Great Southern R.R.—See item under Alabama.

✚Mississippi—The Commercial Club of Yazoo City, Miss., has awarded the contract to WALTER C. MURPHY, Yazoo City, for the construction of a standard gage railroad from Yazoo City to Carthage, Miss. Bonds for $100,000 have been issued.

Mississippi—Mobile & Ohio R.R.—This company plans to double-track its line between Corinth, Miss., and Jackson, Tenn. B. A. Wood, Mobile, Ala., is Ch. Engr.

✚Louisiana—Vicksburg, Alexandria & Southern Ry.—This company has awarded a contract to FRANK T. CONSTANT, Alexandria, La., to construct 8½ miles of its proposed line, from Tioga, La., to Alexandria.

Tennessee—Mobile & Ohio R.R.—See item under Mississippi.

Tennessee—Belt Ry. of Chattanooga—This company, it is reported, has purchased 50 acres of land about two miles north of Chattanooga, Tenn. Terminals and yards will be constructed. H. S. Chamberlain, Chattanooga, is Pres.

Tennessee—Nashville, Shiloh & Corinth Ry.—The citizens of Perry County, Tenn., will vote July 11, on the proposition to issue $100,000 in bonds to aid the construction of this company's proposed line. The county seat of Perry County is Linden.

Tennessee—Alabama Great Southern R.R.—See item under Alabama.

Kentucky—Wasioto & Black Mountain R.R.—This company plans to construct an extension from Benham, Harlan County, Ky., to coal and timber lands in Letcher County, 16 miles.

Kentucky—Illinois Central R.R.—This company plans to start work soon to double-track its line from Princeton to Eddyville, 40 miles, at an estimated cost of $500,000. A. S. Baldwin, Chicago, Ill., is Ch. Engr.

Ohio—Tri-State Rys. Co.—See item under Michigan.

Ohio—Akron, Canton & Youngstown Ry.—This company plans to construct an extension to Canton, Ohio, from its present terminus at Magadore, Ohio. Estimated cost $3,000,000. J. A. Donahey, Akron, Ohio, is Gen. Supt. and Ch. Engr.

✚Michigan—Tri-State Rys. Co.—This company has awarded the contract to A. C. LINGEBACH & CO., Chicago, Ill., for constructing its proposed 18-mile railroad from Hillsdale, Mich., south to Pioneer, Ohio. Noted June 25.

Illinois—La Salle Terminal R.R.—This company is having surveys made for its proposed seven-mile industrial line in the La Salle District, Ill. Isham, Randolph & Co., Chicago, Ill., are Engrs.

Wisconsin—Wisconsin Southern Ry.—This company is receiving bids for the construction of 32 miles of railroad in Wisconsin. The officials of the company are located at Fond du Lac, Wis.

Nebraska—Missouri Pacific R.R.—This company, it is reported, plans to rebuild its low-grade line between Omaha, Neb., and Kansas City, Mo. J. R. Stephens, St. Louis, Mo., is Ch. Engr.

Missouri—Rolla, Ozark & Southern R.R.—This company was granted a charter, June 11, to construct a railroad out of Rolla. J. J. Cope, Salem, Mo., is interested.

Arkansas—The construction of a railroad from Hot Springs, Ark., to Mena, Ark., 65 miles, is under consideration. W. E. Womble, Womble, Ark., is interested.

Arkansas—Free Valley R.R.—This company has been granted a charter by the State Board of Railway Incorporation, Little Rock, to construct a railroad from Eagle Mills, Ark., to Princeton, Ark., 25 miles. Edward Bower, Little Rock, is interested.

Texas—Kansas City, Mexico & Orient Ry.—This company plans to construct a line from Alpine, Tex., to the Rio Grande crossing, six miles from Presidio, Tex. R. P. Parker, San Angelo, Tex., is Ch. Engr.

Texas—The Chamber of Commerce of Dallas, Tex., it is reported, is considering the construction of a railroad from Dallas to Palestine, Tex., 105 miles. J. R. Babcock, Dallas, is interested.

Idaho—Oregon Short Line R.R.—This company plans to construct a line from the Yellowstone Park Branch into Teton Basins, Idaho, a distance of 75 miles. E. E. Calvin, Salt Lake City, Utah, is Gen. Mgr.

Nevada—A merger by which two parallel lines of railroad in Nevada are to be made one, and trackage abandoned whose initial cost was $1,200,000, was decided upon at a conference in this city June 17, between the officials of the Las Vegas & Tonopah R.R. and Tonopah & Tidewater R.R., which was the Bullfrog Goldfield R.R. The two roads were built when the Goldfield-Tonopah District was prospering, but when the mines began to show disintegration it was found that one line was not needed. As mapped out, about half of the roads between Goldfield and Beaty will be abandoned, and the remaining segments hooked together. J. Ross Clark, Los Angeles, Calif., is Pres. L. V. & T. Ry.

California—John Thorp, Memphis, Tenn., and Y. S. Scritsmier, Portland, Ore., are interested in the construction of a railroad from Sacramento, Calif., to timber lands in Eldorado County, Calif.

★Canada—A Canadian holding company owns the charter for a continuous line of railway in western Canada, covering a distance of approximately 1250 miles. The line traverses a territory containing coal, timber, oil and various kinds of minerals and also a most productive wheat country. The company has made reconnaissance, route and location surveys costing about $150,000, and has also made accurate estimates of the cost of construction. Bonding powers and government grants considerably exceeding the estimated cost of construction are granted to the company by acts of Canadian Parliament. The holding company owns several valuable tracts of coal, oil and timber lands and also a number of valuable terminal sites, situated in leading commercial centers. The company wishes to place the whole proposed line under construction immediately and is prepared to treat with capitalists or large contractors who will take the construction bonds at an agreed price and build and equip the said proposed lines according to the plans prepared by the company's engineers. Offers will only be entertained from capitalists or contractors of known standing. Correspondents are therefore required to give full particulars of their name and address in the first instance. Address first correspondence to Canadian Railway Builders, P. O. Box 601, Winnipeg, Man., Canada.

ELECTRIC RAILWAYS

Limestone, Maine—George Cook, Caribou, is interested in the construction of an electric railway from Limestone to Caribou, about nine miles.

Buffalo, N. Y.—The International Traction Co. contemplates the extension of its lines into the Reusens Park section. J. A. McKenna, Buffalo, is Secy.

Cortland, N. Y.—The Cortland Traction Co. has been granted permission to double-track its line in Cortland. Edwin Duffey, Cortland, is Treas. and Mgr.

Gleasonton, Penn.—The Gleasonton & Paddy Run Ry. Co. has been incorporated to construct an electric railway from Gleasonton to a point near Renovo, about 10 miles. I. W. Gleason is Pres.

Lititz, Penn.—The Berks & Lancaster Ry. Co. has been incorporated to construct an electric railway from Lititz to Womelsdorf. The incorporators are Frank J. Duckett, T. Holland Paist, William Grimshaw, Oscar R. Dare, Joseph J. Dimond, and H. B. Longbottom, Philadelphia, and V. J. McGlesney, Phœnixville.

Augusta, Ga.—The Augusta-Aiken Ry. & Electric Co. has been granted a franchise to extend its line on Walton Way to the city limits. E. C. Deal, Augusta, is Gen. Mgr.

Savannah, Ga.—The Savannah Electric Ry. Co. is preparing plans for the extension of its line on Habersham St. to 49th St. A. L. P. Smith, Savannah, is Pur. Agt.

St. Petersburg, Fla.—The St. Petersburg & Gulf Ry. Co. contemplates double-tracking its lines on various streets in St. Petersburg. H. Walter Fuller, St. Petersburg, is Gen. Mgr.

Cincinnati, Ohio—The Cincinnati, Indiana & Ohio River Ry. Co. has been organized to construct an electric railway from Cincinnati, Ohio, to Louisville, Ky. L. S. Cook, Cincinnati, is interested.

The Cincinnati Traction Co. contemplates the extension of its Gilbert Ave. line on Hewitt, Wold and Fairfax Aves. T. Fitzgerald, Cincinnati, is Gen. Mgr.

Columbus, Ohio—The Columbus Ry. & Light Co. is considering plans for double-tracking its line on Oak St. H. W. Clapp, Columbus, is Gen. Supt.

Georgetown, Ill.—W. C. Jones, Georgetown, is interested in the construction of an electric railway from Georgetown to the new Bunsen mine.

Kewanee, Ill.—Preliminary arrangements are being made by the Kewanee, Bradford & Henry Interurban Ry. Co. for the construction of an electric railway to connect Kewanee, Osceola, Bradford and Henry, about 35 miles. C. G. Lampman, Cedar Rapids, Iowa, is interested. Noted Apr. 9.

Pekin, Ill.—Bids will be received July 6 by the City Clerk for the rehabilitation and equipment of about 3½ miles of electric railway in Pekin.

+San Francisco, Calif.—The Turkish Government has awarded a contract for the construction of a pavilion on the Exposition grounds to the NORTHWEST CONSTRUCTION CO., Merchants Exchange Bldg., at $40,000.

Edward T. Foulkes, Arch., Crocker Bldg., is preparing plans for the erection of a three-story hotel to be erected at Baker and Lombard Sts., at an estimated cost of $350,000.

+The Ohio State Commission to the Panama-Pacific International Exposition has awarded a contract to LANGE & BERGSTROM, of San Francisco, at $43,980 for the construction of the Ohio State pavilion on the Exposition grounds.

+The Board of Panama-Pacific Managers for Massachusetts has awarded a contract for the erection of a pavilion on the exposition grounds to W. D. HENDERSON at $52,978.

+Fort William, Ont.—The contract for the erection of the Drew school building, has been awarded to SEAMAN & PENNIMAN, at $76,684.

Winnipeg, Man.—The Ancient Order of Foresters will erect a lodge building at Winnipeg. The estimated cost is $100,000.

Edmonton, Alta.—Bids are being received by Magoon & McDonald, Archs., Tegler Block, for the erection of a club and apartment block on Second and Victoria Ave. The estimated cost is $250,000.

Medicine Hat, Alta.—Bids will be received until 4 p.m., July 6, by R. C. Desrochers, Secy., Dept. of Public Works, Ottawa, Ont., for the erection of additions and alterations to public building.

Prince Rupert, B. C.—Bids will be received until 4 p.m., July 6, by R. C. Desrochers, Secy., Dept. of Public Works, Ottawa, Ont., for the erection of a public building.

The Sullivan Machinery Co., of Chicago, announces that J. C. West has been transferred from the San Francisco office to the general office at Chicago, and that R. P. McGrath, of the Boston office, has been appointed district manager at San Francisco.

The Chicago Steel Tape Co., 6229 College Ave., Chicago, announces that it has opened a downtown office at 900 Lytton Bldg., Jackson Road and State Sts., which is in charge of H. D. Nelson.

Mr. George C. Isbester, for the past three years attached to the New York office of the Rail Joint Co., has been placed in charge of the Chicago office, 215 Railway Exchange.

CONTRACT PRICE

Intercepting Sewer—Newark, N. J.—Bids were received June 16, by the Passaic Valley Sewerage Commissioners for constructing Section No. 17, southerly portion, from (A) The Whiting-Turner Construction Co., Baltimore, Md.; (B) Beaver Engineering & Contracting Co., New York, N. Y.; (C) Merrill-Ruckgaber Co., New York, N. Y.; (D) Bruno & Petitti, Belleville, N. J.; (E) New York & New Jersey Construction Co., New York, N. Y.; (F) Harrison & Craig Co., Newark. The item bids were as follows:

Jos. H. Wallace & Co., Industrial Engineers, Temple Court Bldg., New York, announce that they have found it necessary to open an office at Montreal, Que., to take care of Canadian business. This office will be in charge of two members of the firm, Jos. Perry and P. R. H. Murphy.

The Industrial Works, Bay City, Mich., will handle business of the Chicago territory from the main office in Bay City. In the near future a sales office will be opened in Chicago under the name of the Industrial Works.

The Terry Steam Turbine Co., Hartford, Conn., informs us that business has been more satisfactory than in several months, and in order to take care of the increase, additional tools have been installed increasing the capacity of the shop approximately 25%.

The Trussed Concrete Steel Co. has moved its general offices to Youngstown, Ohio. This step was taken to bring the selling and manufacturing organizations in closer communication. At the same time, an office will be maintained in Detroit to take care of the sales inquiries originating in that territory. The Publicity Department of the company will remain in Detroit.

Contracts to Be Let

Bids received until July 8, 1914.

Sewage Screen

WEST 58TH ST. SEWAGE TREATMENT WORKS.
CONTRACT NO. 2

Cleveland, Ohio.

Sealed proposals will be received at the office of the Commissioner of Purchases and Supplies, No. 513 City Hall, until 12 o'clock M., July 8, 1914, for furnishing and installing a mechanical self-cleaning screen.

Copies of plans and specifications and blank proposals can be obtained at the office of the Commissioner of Engineering, Room No. 403 and No. 417 City Hall, after June 27.

The time required to complete the work is an essential part of this contract.

Each proposal must contain the full name of the party or parties making the same and all persons interested therein, and must be accompanied by a certified check for Five Hundred ($500.00) Dollars, payable to the City of Cleveland on a solvent bank, as surety that if the bid be accepted a contract will be entered into and the performance of it properly secured.

No proposal will be entertained unless made on the blanks furnished by the Commissioner of Engineering and delivered at the office of the Commissioner of Purchases and Supplies, No. 513 City Hall, previous to 12 o'clock M. on the day specified.

The City reserves the right to reject any or all bids.

A. R. CALLOW,
Commissioner of Purchases and Supplies.

Bids received until July 22, 1914.

Water Improvements and Repairs

Hudson, N. Y.

Sealed bids will be received until 7:30 P. M., July 22, 1914, by the Secretary of the Commission of Public Works, of the City of Hudson, N. Y., for furnishing material and labor necessary for water proofing the old wall and constructing a six inch reinforced concrete cut-off wall on the upstream face of the storage dam at Churchtown, N. Y., also repairing the outer face as described in the plans and specifications.

Copies of the plans and specifications are on file in the office of the Commission of Public Works and copies will be mailed upon receipt of Ten Dollars ($10.00). This amount will be refunded upon return of plans and specifications in good condition.

The Commission of Public Works reserves the right to reject any and all bids.

M. J. O'HARA,
City Engineer.

HENRY M. JAMES,
Secretary, Commission of Public Works.

Bids received until July 13, 1914.

Pipe, Valves, etc.

Killeen, Texas.

Bids will be received by the Mayor and City Council of Killeen, Texas, and publicly opened on the 13th day of July, 1914, for the purchase by said City of

1500 feet of 8" cast iron pipe
550 feet of 6" cast iron pipe
8000 feet of 4" cast iron pipe
4 eight inch gate valves
1 six inch gate valve
9 four inch gate valves
20 fire hydrants
1 Motor driven deep well pump.

Complete list of material requirements can be had by addressing M. Griffin O'Neil & Sons, Praetorian Building, Dallas, Texas.

Bids received until July 20, 1914.

Steel and Concrete Bridge

Perth Amboy, N. J.

Sealed proposals will be received by the Board of Chosen Freeholders at their room in the County Record Building at New Brunswick, N. J., on MONDAY, JULY 20, 1914, at 2:30 o'clock for the construction of a Steel and Concrete bridge across the cut or crossing of the Lehigh Valley Railroad at Convery Place in the City of Perth Amboy; according to plans and specifications on file at the office of Thomas H. Hagerty, County Collector, New Brunswick, N. J., and at the office of Alvin B. Fox, Perth Amboy, N. J.

A deposit of Ten Dollars ($10.00) will be required for copies of plans which will be refunded upon the return of same in good condition.

Each bid must be accompanied by a certified check in the amount of $5000.00 payable to the order of Thomas H. Hagerty, County Collector, without any conditional endorsements, which check shall be forfeited should the successful bidder fail to enter into contract and bond within ten days from the award of the bid.

The Board reserves the right to reject any or all bids if in their opinion it is to the best interest of the County so to do.

A. J. GEBHARDT, Director.
Attest: ASHER W. BISSETT, Clerk.

Bids received until July 23, 1914.

Equipment for Sale

Sealed proposals will be received by the director of public service of the city of Columbus, Ohio, at his office in City Hall Building, until 12 o'clock noon, standard time, of July 23, 1914, when they will be publicly opened and read at that hour, for the following equipment, located in what is known as the West Side Pumping Station, on West Spring Street and the Olentangy River, Columbus, Ohio, in accordance with the specifications on file in the office of the superintendent of the division of water, City Hall Building, from whom copies may be obtained.

One Gaskle compound horizontal condensing pumping engine, capacity ten million gallons per day.

Two Holly horizontal compound condensing engines, capacity twelve million gallons each, per day of 24 hours, against the head of 200 feet with 80 pounds of steam.

The right is reserved to reject any and all bids.

S. A. KINNEAR,
Director of Public Service.
Attest: PAUL B. KEMPER, Clerk.

Bids received until July 23, 1914.

Filtration Plant Contract No. 2

Sealed proposals will be received at the office of the Commissioner of Purchases and Supplies, Room 513 City Hall, Cleveland, Ohio, until 12 M., July 23, 1914, for the construction of a concrete coagulant house and wash water reservoir.

Each bid must be made in accordance with the plans, specifications and proposal blank, copies of which may be obtained of the Commissioner of Water, at 413 Superior Avenue, Cleveland, Ohio, upon deposit of twenty-five ($25.00), which deposit may be redeemed by the return of the plans in good condition.

No proposal will be entertained unless made on the proposal blanks above mentioned and delivered at the office of the Commissioner of Purchases and Supplies previous to 12 M. on the day specified.

The City reserves the right to reject any or all bids.

ENCOURAGEMENT IN THE BUILDING OUTLOOK

Figures have just been completed showing that in 22 cities of the country the plans filed in June this year called for an expenditure of $64,800,000, compared with $62,200,000 in the same month last year. A gain of nearly $3,000,000 was recorded in Eastern cities in June. This is by far the most favorable showing of the year, for it is a gain of 12%. For the first six months there was a falling off of 3.5%, showing a complete reversal of the trend.

In the West the outlook was good, but not as favorable as in the East. In 21 cities in the Middle West there was a gain in June of this year compared with last year of $800,000, or 2.5%. For the first six months of the year there was a decrease of 0.5%.

In eight cities in the Southern states there was a falling off of $1,166,000 in June, or 23%. For the half-year the decrease was less in proportion, amounting to $3,628,000, or 15.7%.

For the entire country from which figures are available at this writing, including 51 cities, the building operations for the half year from plans filed with building inspectors amounted to $322,000,000, compared with $332,000,000 in the corresponding six months last year. The falling off of $10,000,000 is rather small, amounting to only 3%.

In the accompanying table is given the official figures representing the estimated cost of new buildings from plans filed with the building inspectors for June, 1914, and June, 1913. The table also includes the figures covering the first six months of this year and a similar period of last year.

RAILWAYS

New York—Buffalo, Lockport & Rochester Ry.—This company plans to extend its line from Lockport, N. Y., to Niagara Falls, N. Y. H. C. Prather, Rochester, N. Y., is Gen. Mgr.

Pennsylvania—Pennsylvania R.R.—The Public Service Commission, June 19, approved the proposed lease of the railroad and other property and franchises of the Northern Central Ry. Co. to the Pennsylvania R.R. Co., and also approved the petition for a certificate of valuation authorizing an increase in the capital stock of the Northern Central Ry. from $9,342,550 to $27,079,600. A certificate will not be issued in either case, however, until the commission's accountant has investigated the financial statements made to the commission concerning this matter.

The Northern Central Ry. extends from Baltimore, Md. to Sunbury, Penn., and has 450 miles of track.

✚Gleasonton & Paddy's Run R.R.—This company has awarded the contract to PETER CILLO, Williamsport, Penn., for grading and track-laying on its proposed line out of Gleasonton, Penn. The contract for bridge work has been awarded to the AMERICAN BRIDGE CO. E. C. Wakefield, Gleasonton, is Ch. Engr.

Maryland—Pennsylvania R.R.—See item under Pennsylvania.

✚**Virginia**—Southern Ry.—This company has awarded contracts for 19 miles of double-track work on its Washington Division between Amherst and Elma, Va., as follows: From Amherst to Tye River, eight miles, to C. W. LANE & CO., Atlanta, Ga.; from Tye River to Elma, 11 miles, to H. J. DUNAVANT & CO., Chattanooga, Tenn.

Florida—White Springs & Suannee River R.R.—It is reported that financial arrangements have been made to construct this company's proposed line from Live Oak, Fla., to White Springs, Fla., 20 miles. A. E. Glass, Pensacola, Fla., is interested.

Alabama—Nashville, Chattanooga & St. Louis Ry.—This company, it is reported, is having surveys made for a line from Guntersville, Ala., to Huntsville, Ala., 30 miles. H. McDonald, Nashville, Tenn., is Ch. Engr.

Bay City, Lynn Haven & Northern Ry.—This company has been organized for the purpose of constructing a line from Chipley, Ala., to Hartford, Ala., 28 miles. The Chamber of Commerce of Montgomery, Ala., is interested.

Mississippi—Nashville, Shiloh & Corinth R.R.—See item under Tennessee.

Tennessee—Nashville, Shiloh & Corinth R.R.—The citizens of Hardin County have voted to issue $240,000 in bonds to aid this company to construct its proposed line from Nashville, Tenn., to Corinth, Miss. C. C. Thoms, Corinth, Miss., is interested. Noted Apr. 9 and May 28.

Tennessee—Gulf & Bay Ry.—This company has been incorporated for the purpose of constructing a railroad from Embreeville, Washington County, Tenn., to the state line between the states of North Calorina and Tennessee at a point in Unicol County, via Erwin Unicol County, Tenn. The incorporators are William A. Roberts, J. F. Torey, R. M. Barry, I. R. Roberts, J. L. Tucker, I. R. Love, J. D. S. Rybcon and N. T. Tucker.

Indiana—Wabash R.R.—This company plans to start work soon on proposed track elevation work at Taylor St. and Thompson Ave., Fort Wayne, Ind. A. O. Cunningham, St. Louis, Mo., is Ch. Engr.

Montana—The construction of a railroad from Rimini, Mont., to the porphyry dike, Helena, Mont., is under consideration. James Breen, Helena, is interested.

Missouri—Terminal R.R. Association of St. Louis—This company has been authorized by the State Public Service Commission to issue $1,000,000 in bonds for improvements. A. S. Johnson, St. Louis, Mo., is Supt.

Missouri—Chicago, Rock Island & Pacific Ry.—This company has been granted permission to issue $1,216,000 in bonds for general betterment work. J. W. Waber, Carlisle, Iowa, is Engr. Const.

Arkansas—Missouri, Arkansas & Southwestern R.R.—This company has been organized to construct a railroad from Hot Springs, Ark., to Mena, Ark., 65 miles. The construction work will include two one-span bridges over the Caddo River and one four-span bridge over the Quachita River. W. E. Womble, Womble, Ark., is interested. Noted July 2.

Texas—See item under Miscellaneous: Terminal—Dallas, Tex.

Texas—Missouri, Kansas & Texas Ry.—This company, which is building terminals at San Antonio, Tex., will extend its lines from San Antonio to a point along the Rio Grande. G. A. Webb, Austin, Tex., is Gen. Mgr.

Altus, Lubbock & Roswell R.R.—It is reported that construction work on this company's proposed line will soon be resumed. The line was recently sold by Edward Kennedy and associates to a syndicate which is composed of O. L. Slayden and F. E. Wheeler of Lubbock, Tex., and J. M. West, E. C. Noble and Carey Shaw, of Houston, Tex. The road is

already completed between Altus, Okla., and Wellington, Tex., a distance of 60 miles, and the grade of the division between Memphis, Tex., and Lubbock, Tex., 86 miles, is practically finished and ready for the rails.

Idaho—Oregon-Washington R.R. & Navigation Co.—This company plans the construction of a line from Moscow to Bovill, Idaho, a distance of 26 miles. J. R. Holman, Portland, Ore., is Ch. Engr.

Idaho—Boise—Payette Lumber Co.—This company has started work on 14 miles of its proposed line into the Boise Basin. C. A. Barton, Minneapolis, Minn., is Vice-Pres. and Gen. Mgfr. Noted Apr. 16.

✚**Washington**—Oregon Washington R.R. & Navigation Co.—Twoby Bros., Portland, Ore., recently awarded the contract by this company for constructing its line from Chambers Prairie Station, Wash., to Olympia, Wash., have sublet the work to the RAJOTTE, FOBERT & WINTERS CONSTRUCTION CO. Noted June 25.

California—T. S. Montgomery, San Jose, Calif., is interested in the construction of an 18-mile standard-gage railroad from Niles, Calif., to San Jose, Calif.

Bay Shore R.R.—This company has been incorporated for the purpose of constructing a railroad from Ocean Beach to Bird Rock, Calif. Capital, $200,000. The offices of the company will be located at San Diego, Calif.

Preliminary surveys have been made and plans outlined for constructing a railroad from Pasadena, Calif., to Los Angeles, Calif., 9¼ miles. T. D. Allin, Comr. Pub. Wks. of Pasadena, is interested. Noted June 25.

California—Southern Pacific Co.—This company plans to spend $1,000,000 in reconstructing its terminal system at San Francisco, Calif. William Hood, San Francisco, is Ch. Engr.

✚Pasadena, Calif.—The contract for constructing a 4,000,000-gal. concrete lined reservoir has been awarded by the William Allin Estate to ROBERT YOUNG, 601 El Centro St., South Pasadena, at $12,800.

Riverbank, Calif.—The Riverbank Water Co. will construct a steel tank with a capacity of 50,000 gal. on a 50-ft. tower. B. W. Hobart is Mgr.

★Montreal, Que.—(Official)—All bids received May 19 for the installing of two 12,000,000-gal. pumps have been re-

jected. The contract will be readvertised and bids received about July 30. L. N. Senecal is Secy. Noted May 7.

✚**New Toronto, Ont.**—Contracts for furnishing hydrants and valves and a 75,000-gal. steel tank have been awarded to the CANADIAN ALLIS-CHALMERS CO., Torento, at $11,841 for hydrants and valves, and to the CARGO BRIDGE & IRON CO., Bridgeburg, Ont., at $4450 for the steel tank. Noted June 18.

SEWERS

✚**Boston, Mass.**—The contract for constructing sewers in Washington, Lesher and South Sts., West Roxbury. District has been awarded to JAMES DRISCOLL & SON CO. at $12,559. Other bids were: M. De Sisto, $13,084; Anthony Baruffaldi, $13,521; Martino De Matteo, $14,140; West Roxbury Trap Rock Co., $14,300; Louis Balboni, $14,998; Antony Cefalo, $15,197; George M. Bryne Co., $16,108; M. H. Kelley, $16,379; McCarthy & Walsh, $16,481; Michael Meehan, $18,854. L. K. Rourke is Comr. of Pub. Wks. Noted June 25.

Fitchburg, Mass.—(Official)—Bids will be received by the Sewage Disposal Commission until 3 p.m., July 14, for constructing lateral connections and about 800 ft. of 72-in. storm sewer. David A. Hartwell is Chief Engr.

Haverhill, Mass.—The city contemplates constructing sewers in Kenoya Ave. to protect the watershed at Kenoya Lake. The estimated cost is $20,000.

✚**New Bedford, Mass.**—The contract for building and erecting screens, machinery, auperstructure and appurtenances for the Clarks cove screen house of the intercepting sewer system has been awarded to the P. F. WOOD BOILER CO., at $6444. Other bids were from the New Bedford Boiler & Machine Co., $7224; New England Structural Co., $10,184.

Warren, R. I.—The City is considering installing a sewer system, at an estimated cost of $50,000.

✚**Middletown, Conn.**—(Official)—The City Council received bids for constructing the sewerage system in the western portion of the city from A. BRAZOS & SON, Middletown, Conn., $20,196 (awarded contract); Frank Arrigoni & Bro., Middletown, Conn., $22,640; Berardino & Tomassette, Meriden, Conn., $23,542; Pierson Engineering & Contracting Co., Hartford, Conn., $26,075; Young & Hyde, Inc., New York, N. Y., $29,781. Bids for constructing the sewage disposal plant were received from Salvatore Mazzotti, Middletown, Conn., $7001; FRANK ARRIGONI & BRO., Middletown, Conn., $7061 (awarded contract); Suburban Engineering Co., New York, N. Y., $7170; A. Vignola & Co., Harrison, N. Y., $8501; Young & Hyde, Inc., New York, N. Y., $9206; Pierson Engineering & Cantracting Co., Hartford, Conn., $11,376; J. M. Lucey is City Engr. Plans were prepared by Alexander Potter, 50 Church St., New York, N. Y. Noted June 18.

✚**West Haven, Conn.**—(Official)—The contract for constructing about 35 miles of vitrified pipe sewers from 8-in. to 24-in. in diameter has been awarded to ROBERT DAILEY & F. F. MAHER, New Haven, at $182,754 and the contract for constructing the pumping station and sewage disposal plant to the ATLANTIC CONSTRUCTION CO. & CAULDWELL WINGATE CO., at $40,645. The above figures differ from the unofficial totals as printed in the issue of July 2.

✚**West Haven, Conn.**—The contract for furnishing the vitrified pipe for the sewage system has been awarded to the JORDAN CO., 39 South Front St., New Haven, Conn. About 185,000 lin.ft. of 8- to 24-in. pipe will be required. Clyde Potts, 30 Church St., New York, N. Y., is Engr. Noted May 5 and 28, June 18, July 2.

✚**Albany, N. Y.**—(Official)—The contract for constructing the sewage disposal works has been awarded by the Board of Contract and Supply to the RIVERDALE CONTRACTING CO., New York, N. Y., at $284,302 (unofficial total). Other bids were from R. T. Ford Co., Rochester, N. Y., $287,799; Phœnix Construction Co., New York, N. Y., $298,888; Henry C. Ulen, Chicago, Ill., $300,804; Mason, Hilton & Co., Merrill, Ruckgaber Co., New York, N. Y., $331,541. Noted Apr. 30 and June 11.

Bedford Hills, N. Y.—Bids will be received by James Wood, Pres. Bd. of Mgrs., N. Y. State Reformatory for Women, for building additions and alterations to sewerage and sewage disposal plant also for water supply for groups of cottages.

New York, N. Y.—(Official)—Bids will be received by Marcus M. Marks, Pres. of the Borough, until 2 p.m., July 16, for the reconstruction of the sewer in 111th St., between Manhattan and Eighth Aves.

Oneida, N. Y.—Bids will be received by D. J. Covell, City Clk., until 4 p.m., July 21 for constructing a vitrified pipe sewer in Sherman St.

✚**Syracuse, N. Y.**—The contract for repairing the sewer in Free St. has been awarded by the Board of Contract and Supply to SAMUEL BONN at $11,981.

Jersey City, N. J.—The Board of Commissioners have decided to construct a trunk sewer in the Horseshoe section.

Newark, N. J.—(Official)—Bids will be received by the Passaic Valley Sewerage Commissioners until 2 p.m., for constructing part of Section 27 of the Main Intercepting Sewer, crossing the Passaic River, in compressed air tunnel, from Newark to Harrison, also for constructing Section 14 of the Main Intercepting Sewer. John S. Gibson is Clk. of the Comn.

✚The contract for constructing part of Section 9 of the Main Intercepting sewer in Newark and Belleville, has been awarded by the Passaic Valley Sewerage Commissioners to CAULDWELL - WINGATE CO., New York, N. Y., at $86,582. Noted June 11 and July 2.

✚**Aliquippa, Penn.**—The contract for constructing storm sewers has been awarded to S. B. MARKLEY at $9107. I. S. Patton is Borough Secy. Michael Baker, Fort McIntosh National Bank Bldg., Beaver, is Borough Engr.

Haselton, Penn.—Bids will be received by B. E. Youngman, City Engr., until 7 p.m., July 10, for constructing an 18-in. temporary water sewer in Diamond Ave. and Hayes St.

✚**Lebanon, Penn.**—The contract for constructing the second unit of domestic sewerage has been awarded as follows: For two sections, J. V. FRITCHEY, at $49,026 and $[illegible] 377, respectively; and to BENNETT & RANDALL at $50,[illegible] for the third section. Noted June 4.

Laurel, Md.—The City Council has commissioned Harry Stevens, Washington, D. C., to prepare plans for installing water mains filtration plant and a complete sewage disposal plant. The estimated cost is $65,000.

Petersburg, Va.—The city will construct a 36-in. concrete sewer, estimated to cost $8000. The work will be done by day labor. R. D. Budd is City Engr.

Kinston, N. C.—The City has voted $100,000 in bonds for sewer and other improvements. F. I. Sutton is Mayor. Noted Mar. 27, 1912.

Clearwater, Fla.—The city contemplates the construction of a sanitary sewer, estimated to cost $20,000.

Leesburg, Fla.—The City Contemplates the installation of a sewer system.

Perry, Fla.—The city will construct a sewer system and water works. Plans have been prepared. C. L. Brandon is City Clk.

Memphis, Tenn.—Bids were received by the Board of City Commissioners for constructing the storm sewer on Keel Ave. from F. D. Harvey & Co., $8191; Koehler Bros. & Fowler Construction Co., $8333; Noll Construction Co., $6504; George O. White & Co., $7398; Pouncey Paving & Construction Co., $11,173.

Paducah, Ky.—The Aetna Engineering Co., Chicago, Ill., is preparing plans for a trunk sewer system. Bids will be received about Aug. 1. L. A. Washington is City Engr.

✚**Akron, Ohio**—It is reported that the contract for building a portion of the work on the sewage disposal plant has been awarded to DUQUESNE CONSTRUCTION CO., Pittsburgh, Penn. The following are the item bids: Removing earth excavation at $50,400; rock excavation, $5000; rolled embankment, $3800; parking, $3000 and macadam roadways $8800. Noted July 2.

Amherst, Ohio—Bids will be received by C. G. Aschenbach, Village Clk., until noon, July 23, for 3400 ft. of sanitary sewers in Wells, East, North and South Hazel Sts.

Cleveland, Ohio—Bids will be received by A. R. Callow, Comr. of Purchases and Supplies, until noon, July 16, for constructing a sewer in Eastern Boulevard.

✚**Sandusky, Ohio**—The contract for constructing the South End sewer system has been awarded to J. C. CARLAND & CO., Toledo, Ohio, at $68,586.

✚**Steubenville, Ohio**—The contract for constructing a sewer in Spring Ave. has been awarded to Harry M. Bates, Steubenville, at $7072. T. M. Kennedy is Clk.

Westerville, Ohio—Bids will be received by the Village Council, until noon, July 17, for extending and improving the sanitary sewer system. R. D. Bennett is Village Clk.

Greencastle, Ind.—The city will construct a sewer system, estimated to cost $80,000. Vitrified pipe 8- to 18-in. will be used. Alec Lane is City Engr.

New Albany, Ind.—The city contemplates constructing a trunk sewer.

✚**Grand Rapids, Mich.**—The contract for constructing the Madison Ave. sewer has been awarded to RICHARD PICKETT, at $5495.

Traverse City, Mich.—The city plans to construct sewers and a disposal works. Bonds for $90,000 have been voted.

Berwyn, Ill.—Bids will be received by the Board of Local Improvements until 8 p.m., July 21, for constructing a sewer in 16th St. Plans are on file with Arthur R. Wolfe, 39 South La Salle St., Chicago, Ill. Oscar N. Lindahl is Secy. of the Bd.

Chicago Heights, Ill.—(Official)—Bids will be received by the Board of Local Improvements until 8 p.m., July 11, for installing a sanitary sewer system. The contract calls for 4378 ft. of 24-in. double strength tile pipe sewer; 1325.6 ft. of 20-in. double strength tile pipe sewer; 1322 ft. of 18-in. double strength tile pipe sewer; 6837.8 ft. of 12.in. standard strength tile pipe sewer; 663 ft. of 10-in. tile pipe sewer; 48,413.6 ft. of 8-in. tile pipe sewer; 37,884 ft. of 6-in. tile pipe sewer; 60 ft. of 24-in. c.-i. sewer; 312 plain manholes, complete with frames, covers and steps; 32 drop manholes, complete with frames, covers, steps and drop connections; and 46 flush manholes; complete with frames, covers, steps and flushing connections. The total estimate is $103,119. M. H. McCoy is Engr.

Farmer City, Ill.—A petition has been filed with E. F. Campbell, County Clk., for a sewer system in the eastern section of the city. The estimated cost of the improvement is $421,597.

✚**Freeport, Ill.**—The contract for constructing a storm sewer system and laying brick pavement has been awarded to the GUND GRAHAM CO., Freeport, at $36,403.

Geneva, Ill.—Bids will be received by the Board of Local Improvements until 7 p.m., July 18, for constructing sanitary sewers. The W. S. Shields Co., Hartford Bldg., Chicago, is Engr.

Springfield, Ill.—Bids will be received by John S. Schnepp, Mayor, for constructing a 5-ft. single ring brick sewer, estimated to cost $14,000. W. D. Seeley is City Engr.

Elkhorn, Wis.—(Official)—Bids will be received by the City Clerk until 7:30 p.m., July 10, for constructing 1392 ft. of 15-in., 642 ft. of 12-in.; 7495 ft. of 10-in.; 19,297 ft. 8-in. vitrified pipe sewers; 53 manholes; three flush tanks; one Imhoff tank and two filter beds. Plans are on file with the City Clerk and W. G. Kirchoffer, Madison, Wis.

✚Aledo, Iowa—It is reported that the contract for constructing sewers has been awarded to DALTON BROS., Wilmette, Ill., at $5316.

Clarion, Iowa—Bids will b received by F. W. Walker, City Clk., until July 21, for constructing a sewer system.

Keota, Iowa—Plans are being prepared by the Iowa Engineering Co., 123 Sixth Ave., Clinton, for constructing a sewer estimated to cost $30,000.

Rockwell City, Iowa—See item under "Water Supply and Irrigation."

Wapello, Iowa—Bids will be received by the City Recorder until July 9, for constructing either vitrified brick or concrete pipe sewer, Sub-Sewage District, No. 3. The Central States Engineering Co., Muscatine, is Engr.

Waterloo, Iowa—Bids will be received by the City until 7:30 p.m., July 13, for constructing 8-, 10-, 12-, 15- and 30-in. sewers, also a pump house. C. A. Roby is City Engr.

Staples, Minn.—Bids will be received by the City Clerk until July 14, for constructing a sewage disposal plant.

Carthage, Mo.—Bids will be received by the City Council until 5 p.m., July 28, for constructing a trunk sewer, estimated to cost $25,000. James B. Lloyd is City Clk.

Benton, Ark.—Press reports state that bids will be received about Nov. 1, for constructing sewer and water works systems, estimated to cost $60,000. E. A. Kingsley, Little Rock, Ark., is Engr.

Dallas, Tex.—The City will construct a 12-, 15- and 18-in. sanitary sewer in Fitzhugh Ave. R. R. Nelms is City Water and Sewer Comr.

Eagle Pass, Tex.—The City Council contemplate the installation of a sewer system.

Ennis, Tex.—The City has voted $30,000 in bonds for constructing a sewer system. W. D. Farris is Mayor.

✚San Antonio, Tex.—The following contracts have been awarded by the City Council; for sewers in Seventh Ward, TRUEHART & JACKSON, $13,070; Peach St. District, BAILEY & REEDER, $16,003 Degnowity Hill District, SAN ANTONIO ENGINEERING & CONSTRUCTION CO., $5432. Noted June 4.

Palouse, Wash.—Bids will be received by the City Clerk, until July 14, for constructing a sewer system in Local Improvement District No. 2. J. M. McCaw is City Engr.

✚Seattle, Wash.—The contract for constructing a sewer in East 56th St. has been awarded by the Board of Public Works to A. M. FIORITO at $7545. Noted June 11.

✚Portland, Ore.—The contract for constructing a vitrified pipe sewer in Rhine St. has been awarded to WILLIAM LIND at $108,599.

Azar & Co. at $7679 submitted the lowest bid for constructing a sewer in East 55th and East Oak St. Noted June 25.

Long Beach, Calif.—Bids will be received by the Board of Public Works until noon, July 22, for constructing a complete sewer system. Bonds for $340,000 have been voted. Noted June 11, and June 25.

★**Metal Flumes**—Great Falls, Mont.—Bids were received for furnishing and delivering f. o. b. manufacturer's plant, metal flumes as follows: (a) 97 lin. ft. of 5 ft. 9 in. flumes, (b) 32 lin. ft. 5 ft. 9 in flumes, (c) 6 ft. 4¼ in. (d) 7 ft., (e) 10 ft. 10 in., (f) 10 ft. 10 in. (curved), (g), 11 ft. 5½ in:

Hess Flume Co., 2166 15th St., Denver, Colo., (a) $101, (b) $37, (c) $118, (d) $9, (e) $4156, (f) $518, (g) $32, (h) total $4972; Hinman Hydraulic Mfg. Co., 1400 West Colfax Ave., Denver, Colo., (a) $116, (b) $40, (c) $126, (d) $13, (e) $5157, (f) $615; (g) $41, (h) $6108; Coast Culvert & Flume Co., Portland, Ore., (a) $126, (b) $42, (c) $152, (d) $10, (e) $5560, (f) $630, (g) $40, (h) $6560; Klauer Mfg. Co., Dubuque, Iowa, (a) $162, (b) $53, (c) $172. (d) $10, (e) $5463, (f) $714, (g) $42, (h) $6617; Colorado Culvert & Flume Co., Pueblo, Colo., (a) $170, (b) $56, (c) $185, (d) $13, (e) $6255, (f) $840, (g) $42, (h) $7561. Noted June 11.

Levee Work—Garland, Ark.—All bids received June 4, by Capt. Ernest Graves, Corps Engrs., U. S. A., Vicksburg, Miss., for constructing levee on Red River have been rejected. Noted May 14.

✚Electric Lighting System—Fort Bliss, Tex.—The contract for additions to the electric lighting system at Fort Bliss has been awarded to the NATIONAL TELEGRAPHONE & SUPPLY CO., El Paso, Tex. Noted May 28.

★Pipe—Denver, Colo.—Bids will be received until 2 p.m., July 30, by F. H. Newell, Dir., U. S. Reclamation Service, 519 Commonwealth Bldg., Denver, for constructing approximately 1750 lin.ft. of 60-in., 8560 lin.ft. of 32-in., and 2406 lin.ft. of 24 in. diameter continuous wood stave pipe for the Belle Fourche Project, South Dakota, the Uncompahgre Valley Project, Colo., and the North Platte Project, Nebraska.

Post Office—Greeley, Colo.—Bids were received as follows, June 30, by Oscar Wenderoth, Superv. Arch., Treasury Dept., Washington, D. C., for the construction of a post office at Greeley, (a) limestone; (b) sandstone; (c) white Colorado marble, (d) white marble, other than Colorado: J. H. Wiese, Omaha, Neb., (a) $95,260; (c) $127,980; (d) $117,760; R. J. Nelson, Greeley, Colo., (a) $125,350; (b) $146,715; (c) $166,290; Eugene Shuler, Pasadena, Calif., (a) $99,000; (b) $108,00; (c) $135,000. Dieter & Wenzel Construction Co., Wichita, Kan., (a) $97,983; (b) $97,983; (c) $131,000; (d) $118,360. George Hinchcliff Co., Chicago, Ill., (a) $102,200; (c) $127,200; (d) $126,000. F. H. Cowell, Denver, Colo., (a) $105,447; (b) $115,505; (c) $136,135. One-story and basement building with mezzanine, stone-faced, 6000 ft. ground area, fireproof construction. Noted May 28.

★Bridge—Boise, Idaho—Bids will be received until 2 p.m., July 30, by F. H. Newell, Dir., U. S. Reclamation Service, Boise, for erecting one 96-ft. span steel highway bridge over the spillway chanel, Arrowrock Dam, Boise project, Idaho.

Turbine Exciter—Puget Sound, Wash.—Bids will be received until 11 a.m., July 25, by H. R. Stanford, Chief Bureau of Yards & Docks, Navy Dept., Washington, D. C., for furnishing and installing one 35-kw. turbine driven exciter in the central power plant at the Navy Yard, Puget Sound, Wash. Noted Incorrectly July 2.

Post Office—Medford, Ore.—Bids will be received until 3 p.m., Aug. 22, by Oscar Wenderoth, Superv. Arch., Treasury Dept., Washington, D. C., for the construction, complete (including mechanical equipment except elevators) of the U. S. post office at Medford, Ore.

Boilers and Accessories—Guanatanamo, Cuba—Bids will be received until 11 a.m., July 25, by H. R. Stanford, Chief, Bureau of Yards and Docks, Navy Dept., Washington, D. C., for furnishing and installing four 200-hp. water tube boilers, with accessories, in the central power plant, naval station, Guantanamo.

MISCELLANEOUS

Dredging—Boston, Mass.—(Official)—Bids will be received until 11 a.m., July 14, by the State Board of Harbor and Land Commissioners, Boston, for dredging in Wild Harbor and Cuttyhunk Harbor. The work calls for 66,000 cu.yd. William F. Williams is Ch. Engr.

Breakwater—Boston, Mass.—Bids will be received until July 14 by the State Harbor and Land Commissioners, Boston, for a pile and timber breakwater at Nobscusset Point. William F. Williams is Ch. Engr.

★Museum Cases—Albany, N. Y.—(Official)—Bids will be received until noon, July 21, by Dr. John H. Finley, Comr. of Education, New York State Education Bldg., Albany, for Type AA museum cases for the New York State Education Bldg. Lewis F. Pilcher, Capitol, Albany, is State Arch.

Dredging, Etc.—Buffalo, N. Y.—H. G. Ward, Comr. Pub. Wks., has recommended for award the bid of the Great Lakes Dredge & Dock Co., Buffalo, for dredging and widening the Buffalo River. The company bid $38,750.

Dock, Coal Pockets, Etc.—New York, N. Y.—(Borough of Manhattan)—Weber & McLaughlin plan to construct a dock, towers, concrete coal pockets, etc., on property recently purchased at 215th St. and the Harlem River. Estimated cost, $50,000.

★Subway—(Station Finish)—New York, N. Y.—(Borough of Brooklyn)—(Official)—Bids will be received until July 23, by the Public Service Commission, 154 Nassau St., Borough of Manhattan, for the construction of station finish on Sections Nos. 1 and 2 of Route No. 11-B, a part of the Broadway-Fourth Ave., Brooklyn, rapid transit railroad, extending under Fourth Ave. from 40th to 90th St. The stations to be finished are located at 45th St., 53rd St., 59th St. (express), Bay Ridge Ave., 77th St. and 86th St. (express).

★Borings—New York, N. Y.—(Official)—Bids will be received until, July 10, by the Public Service Commission, 154 Nassau St., Borough of Manhattan, for making certain land and river borings preliminary to the work of rapid transit railroad construction, in the boroughs of Manhattan, Brooklyn, Queens and the Bronx and in the East River. These borings will include the sinking of 2½- and 8-in. casings and the drilling for 1- and 6-in. cores with both shot and diamond drills.

★Subway—New York, N. Y.—(Borough of Manhattan)—(Official)—Bids will be received until 12:15 p.m., July 24, by the Public Service Commission, 154 Nassau St., Borough of Manhattan, for the construction of Sect. No. 5 of Routes Nos. 1 and 36, a part of the Broadway-Fourth Ave. subway, a two-track railroad in the Borough of Manhattan, connecting the Broadway Subway with the Queensboro Bridge and extending from Seventh Ave. to Fifth Ave., where the two tracks diverge, one continuing through 59th and the other through 60th St. to Second Ave.

Dikes—Redfield, N. Y.—The State Conservation Commission, Albany, has granted permission to the Salmon River Power Development Co. to construct dikes along the east side of Stillwater Reservoir at Redfield.

Channel Work — Rochester, N. Y. — The city plans to deepen the Genesee River at a cost of $400,000. F. T. Elwood is City Engr.

Dock Work—Keansburg, N. J.—The Keansburg Steamboat Co. will enlarge its dock, now about one-half mile long, to accommodate new tracks of the Jersey Central Traction Co.

Fire Apparatus — Orange, N. J. — The City Commission plans to purchase two motor trucks and two motor hose wagons. D. F. Minahan is City Clk.

Harbor Work—Trenton, N. J.—J. R. Fell, Jr., City Engr., has completed plans for the proposed basin to be constructed in connection with the channel now being dredged. It will be 200x800 ft. Plans for the municipal harbor terminus at Fair and Federal Sts. have also been completed.

Stable—Pittsburgh, Penn.—Brown Bros., Potomoc Ave., Pittsburgh, have submitted the lowest bid to the Department of Charities, for constructing a cow stable, at about $25,000. The building will be two stories high.

✚Barns—State College, Penn.—Pennsylvania State College will construct three dairy barns to cost $30,000.

Fire Station—Wilkes-Barre, Penn.—Bids will be received until noon, July 14, by F. H. Gates, City Clk., for constructing a fire station.

Wharves—Augusta, Ga.—Bids are being asked by the Augusta Barge Line Co., Augusta, for constructing wharves at the foot of Fifth St. The structures will be of steel.

✚Levee—Augusta, Ga.—The city has awarded the contract to A. J. TWIGGS & SONS , Augusta, for constructing levee between Sixth St. and East Boundary, at about $65,000.

✚Ditches—Senatobia, Miss.—The Senatobia Creek Drainage Commission has awarded the contract to A. C. MILLER, Walnut Ridge, Ark., for constructing two main ditches.

✚Levee Work—New Orleans, La.—The State Board of Engineers, New Orleans, has awarded the contract to HELGASON BROS., Vicksburg, Miss., for levee work, at 20c. per cu. yd. The work calls for 900,000 cu. yds.

Drainage—Jackson, Tenn.—Madison County, has sold $75,000 of drainage bonds, and will soon award a contract for the construction of a drainage canal 11 miles long, 55 ft. wide and 11 ft. deep.

Subway—Cincinnati, Ohio—At the election in November the citizens will vote on the proposition to issue $12,000,000 in bonds for the construction of the proposed canal subway. Frank Krug is Ch. Engr.

Elimination of Grade Crossings—Cleveland, Ohio—The city is arranging to spend $712,000 for the elimination of the grade crossings of the New York, Chicago and St. Louis Ry. from Fulton Road S. W., to West 96th St. Robert Hoffman is City Engineer.

✚Pier Work—Chicago, Ill.—The contract has been awarded by the city, it is reported, to E. L. SCHEIDENHELM, for constructing the superstructure of the proposed municipal pier, at $1,091,800.

Grandstand — Ames, Iowa—The Iowa State University, Ames, plans to construct a concrete grandstand and fence. Estimated cost, $40,000.

Drain—Boone, Iowa—Bids will be received until 1 p.m., July 11, by C. E. Richards at the Boone State Bank for constructing Mutual Tile Drain in Harrison Township. Estimated cost, $12,065.

✚Ditch—Bemidji, Minn.—The county has awarded the contract to the NORTHWESTERN DRAINAGE CO., Thief River Falls, Minn., for constructing Ditch 21, at 12c. per cu.yd., or $326,445.

✚Ditch—Crookston, Minn.—The contract has been awarded by the county to WILSON BROS., Cromwell, Minn., for Ditch 91, at 13.9c. per cu.yd., or $16,669.

Ditch—Marshall, Minn.—Bids will be received until July 13 by E. S. Shepard, County Audr., Marshall, for constructing Ditch No. 9. Estimated cost, $17,099.

Lake Protection—St. Jospeh, Mo.—Residents of St. Joseph are considering spending $25,000 to protect Lake Contrary from the encroachment of the Missouri River. Charles Campbell is City Engr.

✚Metal Cases—Little Rock, Ark.—The State Capital Commission has awarded the contract to the DEMOCRAT PRINTING & LITHOGRAPHING CO., Little Rock, for metal vault fittings and filing cases for the state capitol, at $10,250.

✚Terminal—Dallas, Tex.—The contract for constructing the union station and terminals has been awarded to JOHN W. THOMPSON, St. Louis, Mo., at about $3,000,000. In addition to the new station building, the contract includes rearrangement of terminal tracks and a bridge across the Trinity River. All the railroads entering Dallas, eight in number, are to use the new station and terminals, and the work is being paid for by them jointly. The lines interested are the Texas & Pacific Ry., Missouri, Kansas & Texas Ry., St. Louis Southwestern Ry., Frisco Lines, Chicago, Rock Island & Pacific Ry., Atchison, Topeka & Santa Fé Ry., Southern Pacific Co. and the Trinity & Brazos Valley Ry.

Wharves—Houston, Tex.—The citizens of Harris County will vote soon on the proposition to issue $1,000,000, in bonds for wharves along the Houston Ship Channel.

Drydock—Parth Arthur, Tex.—A drydock, 500 ft. long and 75 ft. wide will be built at Port Arthur. Estimated cost, $50,000. Capt. John Harvey, Port Arthur, is interested.

✚Harbor Work—Seattle, Wash.—The W. T. BUTLER CONSTRUCTION CO., Central Bldg., Seattle, has been awarded the contract by the Seattle Port Commission for main elevator foundations, East Waterway terminals, at $25,180. The contract includes 62,000 lin.ft. of piling, as well as foundations. Other bids were: Weymouth Construction Co., $26,272; Franklin Engineering Co., $26,696; alternate bid $25,322; H. Brandt Construction Co., $26,910; Graff Construction Co., $27,243; Washington Construction Co., $28,308; M. J. Hursen Co., $28,600; Puget Sound Bridge & Dredging Co., $28,835; Harrington-Peters Co., $28,940; alternate bid, $27,700; Nettleton-Bruce-Eachbach Co., $30,605; Jahn Constructing Co., $31,540; McRae Bros., $31,697; Sound Construction & Engineering Co., $21,718; C. F. Martin, $32,492.

Comfort Stations—Seattle, Wash.—The city is considering the construction of public comfort stations and rest platforms. Estimated cost, $25,000.

✚Dock Superstructure—Seattle, Wash.—The Port of Seattle Commission has awarded the contract to HARRINGTON-PETERS CO., Seattle, for constructing the superstructure of the Hanford St. Dock, at $87,000. Noted July 2.

Dikes—Tacoma, Wash.—The County Commissioners of Pierce County, Tacoma, will establish a diking district outside the city limits of Tacoma, to reclaim between 1500 and 1900 acres of land.

✚Lumber—Los Angeles, Calif. — The Harbor Commission has awarded the contract to the SAN PEDRO LUMBER CO., for 1,500,000 ft. of lumber to be used in connection with the improvement of the inner harbor.

CONTRACT PRICE

✚Bridge Construction—Tiffin, Ohio—Bids were received by the Board of County Commissioners, May 23, for the construction of three concrete bridges across the Sandusky River at Market, Huss and Ella Sts., Tiffin, from (A) VANG CONSTRUCTION CO., Cumberland, Md. (awarded contract for Market St. bridge); (B) J. H. & LEWIS JONES, Fostoria, Ohio and Kansas, Ohio (awarded contract for Huss St. bridge); (C) Wynkoop, McGormley Co., Toledo, Ohio; (D) N. R. Porterfield, 17 Battery place, New York, N. Y.; (E) A. SCHECKELHOFF & SON, Fremont, Ohio (awarded contract for Ella St. bridge); (F) Walter S. Newhall Co., Citizens' Bldg., Cleveland, Ohio; (G) Fritz-Rumer-Cook-Grant Co., Eberly Bldg., Cleveland, Ohio; (H) I. D. Tuttle Co., Bushnell Bldg., Springfield, Ohio; (I) Morse-McGorriam & Bassett, Cleveland, Ohio. The item bids were as follows:

✚Ferry Boat—Oakland, Calif.—The San Francisco-Oakland Terminal Rys. Co. has awarded the contract for the construction of a 230-ft. ferry-boat to the MOORE & SCOTT IRON WORKS, Oakland, at $305,000.

✚Granite Work—Oakland, Calif.—The City Council has awarded the contract for granite work on the municipal auditorium to the CALIFORNIA GRANITE CO., San Francisco, Calif., at $71,857.

Dry Dock—San Francisco, Calif.—The Union Iron Works will ask for bids soon for the construction of a dry-dock to cost about $2,500,000. John A. McGregor, 2567 Green St., San Francisco, is Pres.

★Tunnel—San Francisco, Calif.—Bids will be received by the Board of Public Works until Aug. 19 for the construction of the Twin Peaks Tunnel. It will be 12,000 ft. long, 30 ft. wide, 28 ft. high and will be lined with concrete. Estimated cost, $3,300,000. Frederick J. Churchill is Secy. Bd. Noted May 21.

Plans and specifications are on file at the office of Engineering News, 505 Pearl St., New York.

Dams and Canals—San Francisco, Calif.—The Department of the Interior has given Leland & Myers, San Francisco, Calif., authority to proceed with reclamation work in Modoc County. About $80,000 will be expended in constructing dams and canals.

Pavilion—San Francisco, Calif.—A National Committee has been formed for the purpose of building a British-American pavilion at the Panama-Pacific International Exposition, San Francisco. This body will work in coöperation with the British Committee formed for the same purpose in London, whose members, it is expected, will contribute funds for the purpose and send an exhibit. This plan has no bearing on the arrangements already made for the British competitive exhibitions in the various industrial sections. Estimated cost, $300,000. The British California Association, San Francisco, is interested.

Foundations for Dam — Santa Barbara, Calif. — S. M. Kerns, 625 West Ocean Ave., Long Beach, Calif., was the lowest bidder at $39,360 for the construction of the foundation for the Gibraltar Dam at Santa Barbara. The work will require approximately 980 cu.yd. of excavating rock on abutments, 6540 cu.yd. of material from the river bed, and placing 5635 cu.yd. of concrete. Noted May 28.

Contracts to Be Let

Bids received until July 28, 1914.

Barge Canal Improvements

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS
Albany, June 29th, 1914.

NOTICE TO CONTRACTORS:—

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, July 28th, 1914, at which place and hour they will be publicly opened and read, for improving the New York State canals pursuant to the provisions of Chapter 147 of the Laws of 1903, and of the amendments thereto, as follows:

—1—

CONTRACT NO. 119.
Erie Canal—Section 2.

For furnishing and driving a quantity of steel sheet piling, extending the concrete apron and performing all incidental work connected therewith at Movable Dam Five at Rotterdam, N. Y.

Sheets 1 and 2.

—2—

CONTRACT NO. 120.
Erie Canal—Sections 2 and 3.

Reinforcement of the superstructures of the following seven movable dams over the Mohawk River:

Dam 5 at Rotterdam, Station 1662 + 45, Erie canal.
Dam 6 at Cranesville, Station 1987 + 79, Erie canal.
Dam 7 at Amsterdam, Station 2201 + 46, Erie canal.
Dam 8 at Tribes Hill, Station 2443 + 17, Erie canal.
Dam 9 at Yosts, Station 2954 + 64, Erie canal.
Dam 10 at Canajoharie, Station 3370 + 50, Erie canal.
Dam 11 at Fort Plain, Station 3553 + 85, Erie canal.

Sheets 1 to 15 inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the City of Albany or New York, issued by a national or State bank in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The amount of bond required for faithful performance will be ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds, co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the State for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the State will be enhanced thereby.

DUNCAN W. PECK,
Superintendent of Public Works.

Bids received until July 20, 1914.

Sanitary Sewer, Special Manholes, Combined Sterilizing and Pumping Plant

Tarentum, Pa., June 27, 1914.

The Tarentum Borough Council will receive bids for the construction of approximately 4,000 ft. of 12 inch sanitary sewer ranging in depth from 3 ft. to 26 ft. Also 15 special manholes and a combined sterilizing and pumping plant, as per the plans drawn by Leo Hudson, Consulting Engineer, 1210 House Bldg., Pittsburgh, Pa., up until July 20, 1914, at 7 o'clock P.M. The bids will be received on one or all of the three parts of the contracts, viz.: Part I. Sewer and manholes. Part II. Structural work and treating plant with necessary piping, valves and mechanical equipment exclusive of the pumps and motors with their regulating devices. Part III. Motor driven centrifugal pumps. The motor driven centrifugal pumps may be bid separately, but completely installed by the firm furnishing said equipment on foundation prepared by the Borough. Each proposal is to be presented sealed and addressed to Mr. W. A. Gibson, Borough Secretary, and plainly marked on the lower left hand corner "Proposal for sanitary sewer and manholes" or proposal for any part or parts bid upon. In the upper lefthand corner the name of the firm bidding is to be plainly written. Each proposal is to have enclosed a certified check or bidders' bond in amount equal to five (5) percent. of the bid guaranteeing the good faith of the bidder. The successful bidder will be required to give bond for one hundred (100) per cent. of his bid for the faithful performance of the work. Plans and specifications may be obtained from the engineer.

Council reserves the right to reject any or all bids.

W. F. DENNY, President of Council.
W. A. GIBSON, Borough Secretary.

LEO HUDSON, Consulting Engineer,
1210 House Bldg.,
Pittsburgh, Pa.

Contractors

BIDS OPENED JULY 24, 1914,

for the construction of Section No. 5 of Routes Nos. 4 and 36, a part of the Broadway-Fourth Avenue subway.

A two-track railroad in the Borough of Manhattan, connecting the Broadway subway with the Queensboro bridge and extending from Seventh Avenue to Fifth Avenue, where the two tracks diverge, one continuing through 59th and the other through 60th Street to Second Avenue.

Write or call concerning plans, form of contract and specifications.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT
154 Nassau Street New York City.
